MUSIKUSS RELEASES LEAD SINGLE "SATELLITE DINNER"

August 25, 2026

Hamburg, 2026-08-25 - musikuss releases "Satellite Dinner," the lead single from the upcoming debut album "No Rest for the Wicked." The track has been available for pre-order on the iTunes Store since August 21, 2026 and officially drops on August 28, 2026.

A DINNER UNDER THE STARS

"Satellite Dinner" pairs an intimate, almost domestic scene with sweeping cosmic imagery: a solitary dinner, eaten while staring at the moon and waiting for bad news that never quite arrives - or does, without shaking the calm. The title fuses the familiar comfort of a "TV dinner" with the vastness of orbit, capturing a mood somewhere between quiet dread and weightless contentment.

"It's about that strange state where you're bracing for something terrible, and instead you just feel oddly at peace," musikuss says about the track. "I wanted the song to feel like it's floating - the imagery, the melody, all of it."

Musically, "Satellite Dinner" sets the tone for the album's atmospheric, spacious side, balancing alternative rock instrumentation with dreamlike, textured production - a contrast to the sharper, more satirical tracks also featured on "No Rest for the Wicked."

PART OF A LARGER STORY

"Satellite Dinner" also appears as a live recording on the album, closing out the tracklist and bookending the record with its own atmosphere. "It felt right to end the album where its mood really started," musikuss notes. "This song set the emotional tone for everything else I wrote afterward."

AVAILABILITY

"Satellite Dinner" is out now on all major streaming platforms, including Apple Music, Spotify, and YouTube Music.
